Students with Disabilities

Wheeling Jesuit University encourages faculty, staff, and administration to assist students with disabilities in achieving academic success. This University offers students with documented disabilities individual accommodations on a case-by-case basis with confidentiality in compliance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973.

Ultimately all students are responsible for their own academic achievement. They must attend classes, complete course assignments, and fulfill all university requirements for their chosen field of study.

Students with physical or learning disabilities may require certain accommodations in order to achieve academic success. It is up to students with disabilities to seek out available assistance on campus and to utilize individualized accommodations.

Self-Advocacy

In order to receive accommodations under Section 504 and ADA, students with disabilities must self-identify to the university, provide current (within three years) and comprehensive documentation concerning the nature and extent of the disability, and communicate their needs to the disability services director at (304) 243-4484 before they begin their studies on campus. Students with disabilities that require specific housing accommodations must contact Student Development.

Appropriate Accommodations

Information from documentation of a disability is considered confidential and is shared with faculty and staff only on a need-to-know basis. With the permission of students with disabilities, faculty and staff will be informed of the particular physical or academic accommodations that are necessary and appropriate to meet the individual needs of these students.

Resource for Academic Success - Academic Resource Center - ARC

The Academic Resource Center, located on campus on the ground floor of Ignatius Hall, is a place where all students who want to succeed can find professional staff and peer tutors who can offer strategies to tackle academic tasks.

The ARC includes a computer lab and a comfortable study room and is open 51 hours per week.

Students may call 304-243-4473 to set up an individual appointment with a peer tutor for math, writing, or various core subjects. A professional staff member is available for assistance with time management and study skills for academic success.

Assistance is available - just ask.
